

PATIENT INSTRUCTION

SEMEN ANALYSIS – POST VASECTOMY

Abstain from sexual activity for a minimum of 2 days and a maximum of 5 days prior to collection.

- The sample should be obtained by masturbation and ejaculation into the sterile specimen jar.
- Return the sample to the Pathology Department preferably within one hour or as soon as possible after collection.
- The specimen should not be collected into a condom.

Notify the pathology staff if part of the specimen is lost during collection.
